- ✓ Singing

About Me

I am a Tech Enthusiast currently pursuing my B.Tech in Electronics and communication. I was introduced to electronics at the age of 12 and I have been working on projects ever since. I love tinkering with electronics, adding my personal touch to make things work for me. My primary field of interest is the Internet of Things. Nothing fascinates me more than blurring the barrier between man and technology and being able to contribute to the wave of advancements in technology. I am quick to grasp new skills and a strong believer in application oriented learning. I aspire to become part of a leading Research and Development Team.

Education

SRM Institute of Science and Technology
B.Tech ECE - 7.12 CGPA

Rajagiri Christu Jayanthi Public School
Senior Secondary School - 9.6 CGPA

Rajagiri Christu Jayanthi Public School
Secondary School - 10 CGPA

Domains of Interest

C++

Arduino

NodeJS

Web Dev

Electronics

Linux

Python

IoT

Fabrication

Robotics

CAD

Prototyping

Achievements

- ✓ **Current Technical Lead of The Project Team, SRM IST**
- ✓ **Student Coordinator of The TEKNICUS Program, SRM IST**
- ✓ **Finalist of Siemens MakeIT Real Hackathon 2017 and 2018**
- ✓ **Quarter Finalist of Texas Instruments IICDC 2018**
- ✓ **Organiser of Workshops such as T-Zero 2.0 and T-Zero 3.0**
- ✓ **Awarded 'Best Exhibit' award in Tech-Know 2018 Science Exhibition.**
- ✓ **Coordinating Drone Assistance for Rescue Teams during Kerala Floods**
- ✓ **Completed and working on several projects in Hobby Electronics, IoT and Robotics**
